Web Developer/Programmer

I have always been fascinated on how business and technology relate to each other. I enjoy being able to use my skills as a programmer / web developer to shape a raw business dream into a reality. I love to analyze process flow and come up with the most practical solution possible. As new technologies emerge, I am prepared to adapt and implement these technologies.

TECHNICAL SUMMARY:

WordPress, Custom PHP, Woo Commerce, HTML / CSS, AJAX, Jquery . Responsive Web Solutions . X-cart, Magneto, Design Implementation
